Canterbury Water Management Strategy Targets

- Maintain the braided character of all Canterbury's braided rivers by:
 - Target 1: Maintaining the upper catchments of Canterbury's alpine braided rivers as largely natural ecosystems and landscapes.
 - Target 2: Maintaining the extent of active floodplains, flow variability and sediment flow processes including when undertaking river protection works, landuse change or deliberate vegetation stabilisation
 - Target 3: Supporting the dynamics of river mouths and coastal processes.
 - Target 4: No new dams on the main stem of major alpine braided rivers

Action

- Braided Rivers Agencies / Action Group
 - DoC, LINZ, Te Rūnanga o Ngāi Tahu, District Council, Environment Canterbury, Federated Farmers, Fish & Game, Forest & Bird
 - Comprehensive mapping project
 - o Improving and aligning practice

Rangitata

- Land parcels
- Leases / licences
- Land use

Environment Canterbury work programme

- o Riverbed area
- Natural character assessment
- Biodiversity
- Planning Land and Water Regional Plan: Plan Change 4
- o Compliance & enforcement
- Science 'braidplain'
